PATRONS OF THE CANTON LOW who may not be familiar with ordering Chinese dishes and who are open to suggestion, will find that it is the policy of the management to aid them in having an enjoyable repast without going to unnecessary expense. The management seeks a continuous clientele of satisfied patrons. Suggestion is offered dining parties that all Chinese dishes are served in very generous portions, almost any order except soups, being sufficient for two or three persons if supplemented by some other order. For instance, instead of individual orders, if a party of four orders a variety of single dishes to be served to all on individual plates after being brought to the table, a really pretentious spread may be secured at a trifling expense. Try it. If you experience difficulty in making selections the management or waiter will be more than pleased to assist you.
